DESCRIPTION

CLARIFICATIONS

BASE TIME LIMIT: 1 SECOND | MEMORY LIMIT: 200 MB | CONTEST CONTEST NATAL 2022 / CHRISTMAS CONTEST 2022 BY BEECROWD NATAL

beecrowd | F

CriptoGnomo

Por Neilor Tonin, beecrowd Natal 🇧🇷 Brazil

Timelimit: 1

Pepper, one of Noel's gnomes, loves to play tricks on the gnome Openslae. This time he installed a little program on Openslae's computer that changed all the words "azul" he found in the text to "blue" and changed all the words "vermelho" to "red". You must help Openslae with a program to leave the texts in the original format. But be careful, if the word is "reds" or "ared", for example, it must not be modified.

Input

The input consists of a line containing words in lowercase, without punctuation or accents (at maximun 1000 characters).

Output

For each test case, print the correct sentence to the Openslae gnome.

Samples Input	Samples Output
O blue blueberry blues ablu	o azul blueberry blues ablu
blue blueberry blues blu blue red redes fred	azul blueberry blues blu azul vermelho redes fred
O treno de noel e red	O treno de noel e vermelho
